THE FISHERY

Nestled in the heart of the South Downs National Park, on the edge of the picturesque market town of Arundel, West Sussex.

Chalk Springs Fishery was originally established in 1984 on the site of the old watercress beds, which were extended in 1986 with two further lakes. Now a family run business with four beautiful lakes, which are all fed by natural springs. Creating a unique tranquil setting like no other for fishing our high quality Rainbow and Brown Trout, due to its clear still water.
